

To Whom it May Concern:

I am a flight attendant for a major air carrier. I believe that allowing cell phone use in the aircraft, would not be a wise decision. I have worked in the environment enough to know that at times it be tension filled, being that it is so enclosed. I do not think that adding the allowance of mobile phone use will help this. For one people will not pay attention to safety issues aboard the aircraft. It may flare other passengers tempers regarding phone etiquette, creating a hostile environment very quickly. Once the aircraft takes off, we have limited resources, except communication to resolve situations. Please do not allow another catalyst to our already extreme work environment.

Thank you for your time.

Sincerely,

John A. Cyzon
